

Appendix I

The schedule of the lectures

Aug. 2		
8:30-12:00	Dynamics and Predictability of Extreme Precipitation Events	Fuqing Zhang Pennsylvania State University
13:00-17:30	Orographic Precipitation: Fundamentals and Challenges	Cheng-Ku Yu National Taiwan University
19:00-21:00	Heavy Orographic Precipitation Associated with Landfalling Weather Systems	Cheng-Ku Yu National Taiwan University
Aug. 3		
8:30-12:00	Topic 1 The ingredients for extreme rainfall Topic 2 The organization, evolution, and dynamics of heavy-rain-producing mesoscale convective systems	Russ Schumacher Colorado State University
13:00-17:30	Prediction of extreme local rainfall and Associated Processes	Ming Xue University of Oklahoma
Aug. 4		
8:30-12:00	Mesoscale vortices and their role in extreme precipitation	Russ Schumacher Colorado State University
